DETAILED ACTION

Allowable Subject Matter

Claims 2-3, 6-7, 9, and 11-24 are allowed. The following is an examiner's statement of reasons for allowance:

The prior art of record fails to teach limitations "*wherein the desired MCS error rate for the first MCS level is based on a block error rate target criterion, MCS probabilities for the first MCS level and for other MCS levels, and MCS error rates for the other MCS levels*" and "*the first variable size step is associated with a first variable size up step and a first variable down step, the first channel condition threshold being increased an amount based on the first variable size up step if the first error detection result indicates the first data transmission was unsuccessful, the first channel condition threshold being decreased an amount based on the first variable size down step if the first error detection result indicates the first data transmission was successful*".

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
